

Feel The Present
Experience The Future

Facts About Us

Jamex was established in the year 2014 and is a leading business conglomerate and is profoundly dedicated to excellence in production and designs of its products, with a purpose of offering its clients more space, which would provide them with a unique experience.

Mission

Our central goal is to enhance customer knowledge of uPVC among our clients and teach them on its advantages. It is our mission to give our clients with the most eco-friendly and fair items conceivable, permitting them to design the homes and workplaces of their dreams.

Vision

Our vision is to turn into India's leading uPVC maker while likewise laying down a good foundation for ourselves in the global market. To compete at the global level, we've always focused on collaborating and commemorating global technology with our products.

About Us

- We use the finest quality materials from all over the globe.
- Our profiles are manufactured using 8 parts of Titanium.
- Our profile is highly uv resistant.
- Our profile is thermal conducting and best suitable for Indian climate.

We pioneer in manufacturing color profiles.

Why Us?

We are the most trusted German uPVC Windows and Doors profiles manufacturers in India. Expert in specializing in the design, manufacturing and extruding profiles. Our profiles are,

Weather Proof

Resistant to all weather conditions, compared to Timber windows. Alternative Frames do not absorb moisture and do not alter under extreme weather conditions.

Anti-fungi, Anti-termite

uPVC is not vulnerable to insects and termites. Its hard surface compound protects it from such invasions, and it does not degenerate like wood.

Fire Resistent

uPVC materials used in Alternative Frames are fire resistant and do not support or enhance accidental fires unlike their timber counterparts.

Why Us?

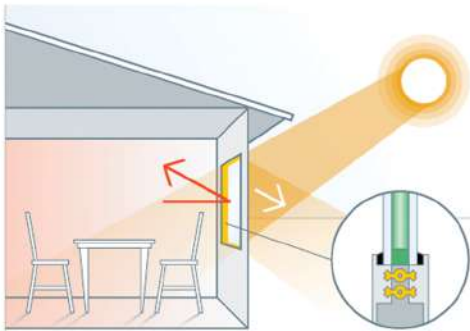

Low maintenance

Alternative Frames do not require periodical repairing or maintenance. They do not rot, warp or corrode serving as a more economical option in the long run.

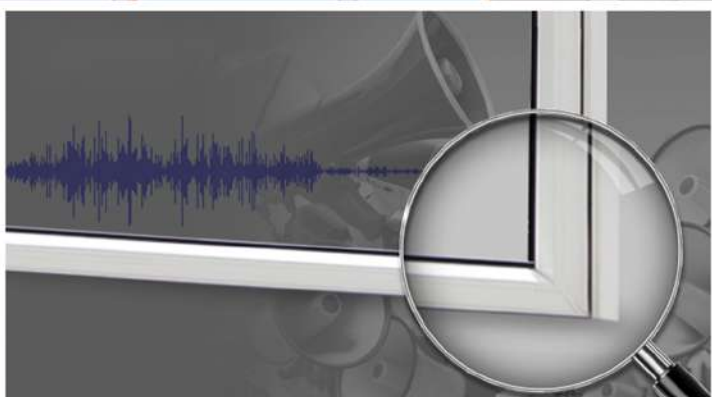

Thermal Insulators

The Alternative Frames prevent thermal bridging, making insulation extremely effective. It has the option of two-layered vacuumed glass panes to achieve more from air conditioning and conserve energy.

Acoustic Insulator

Protection against noise pollution and higher levels of privacy is ensured. Sound insulation is increasingly becoming a compliance issue in many sensitive areas including hospitals.
